CHI SIAMO

PRESENTE ORMAI SUL MERCATO DA PIÙ DI 40 ANNI, LA TERZI INDUSTRIE S.R.L. È LEADER NELLA PRODUZIONE DI MATERIALE IN POLIETILENE ALTA E BASSA DENSITÀ, OLTRE A NUOVI MATERIALI BIODEGRADABILI.

I nostri impianti ci permettono di realizzare qualsiasi tipo di misure, spessori, grammature e personalizzazioni, in quanto il processo di produzione inizia dai granuli di polietilene, che vengono estrusi in film, per poi essere trasformati in prodotti finiti per il settore dell'acconciatura e dell'estetica, oltre all'industria dell'imballaggio.

La nostra azienda negli ultimi anni ha acquisito **TESSILTAGLIO** (marchi, macchinari, tecnologie e know-how), continuando in esclusiva la lavorazione e commercializzazione del brand **EPILBANDY**, con lo storico tessuto epilazione nato nel 1985. Grazie all'esperienza maturata nel campo dell'estetica e alla collaborazione con tecnici esperti nella preparazione di miscele di fibre naturali e sintetiche, abbiamo ideato **HYPOTEX**, nuovo materiale per l'epilazione interamente anallergico, 100% made in Italy, totalmente privo di additivi chimici, diventando ancora più competitivi nel campo dell'estetica.

20 FEBBRAIO 2017

IN SEGUITO
ALLA CRESCITA AZIENDALE,
LA DITTA TERZI IMBALLAGGI
DI LUCIANO TERZI DIVENTA
TERZI INDUSTRIE S.R.L.

2

WHO WE ARE

PRESENT ON THE MARKET FOR OVER 40 YEARS, TERZI INDUSTRIE S.R.L. HAS BEEN LEADER IN THE PRODUCTION OF HIGH- AND LOW-DENSITY POLYETHYLENE MATERIAL, AS WELL AS NEW BIODEGRADABLE MATERIALS.

Our plants allow us to manufacture any type of size, thickness, weight and customization, since the manufacturing process begins from the polyethylene granulates, which are extruded into film, which is then transformed into finished products for the hairdressing and beauty sectors, as well as the packaging industry.

Our company has recently taken over the machinery, brands, technology and know-how of **TESSILTAGLIO**, thus continuing in exclusivity the transformation and commercialization of the **EPILBANDY** brand, with the historical epilation non-woven created in 1985. Thanks to the experience developed in the beauty field and the cooperation with engineers experienced in natural and synthetic fiber blends, we created **HYPOTEX**, a brand new material hair removal, totally hypoallergenic, 100% made in Italy, completely free of chemical additives, thus becoming more competitive in the beauty field

LA NOSTRA STORIA OUR HISTORY NOTRE HISTOIRE

QUI NOUS SOMMES

PRÉSENTE SUR LE MARCHÉ DEPUIS PLUS DE 40 ANS, LA SOCIÉTÉ TERZI INDUSTRIE S.R.L. EST LEADER DANS LA PRODUCTION DE POLYÉTHYLÈNE HAUTE ET BASSE DENSITÉ, AINSI QUE DE NOUVELLES MATIÈRES BIODÉGRADABLES.

Nos équipements nous permettent de réaliser tous types de dimensions, épaisseurs, grammages et personnalisations, car le procès de production commence des grains de polyéthylène, qui sont extrudés sous forme de pellicule, qui est transformée en produits finis pour le secteur de la coiffure et de la beauté, ainsi que l'industrie du conditionnement.

Notre société a récemment acquis TESSILTAGLIO (marques, machines, technologie et savoir-faire), en continuant en exclusive le traitement et la commercialisation du marque EPILBANDY, avec le tissu-non-tissé historique pour l'épilation né en 1985. Grâce à l'expérience acquise dans le secteur de la beauté et à la collaboration avec des techniciens experts dans la préparation des mélanges de fibres naturelles et synthétiques, nous avons idée HYPO TEX, nouveau matériau pour l'épilation complètement hypoallergénique, 100% made in Italy, sans additifs chimiques, en devenant encore plus compétitifs dans le secteur de la beauté.

LAVORAZIONE PROCESSING TRAITEMENT

Hypo tex
HYPOTOLERANT NON-WOVEN

Tessuto anallergico

100%
MADE IN ITALY

MATERIALE RIVOLUZIONARIO ANALLERGICO

Siamo lieti di presentarvi Hypo tex, nuovo materiale per l'epilazione professionale. Ottenuto mediante coesimento delle fibre con getti d'acqua, non contiene nessun additivo chimico, escludendo così a priori qualsiasi tipo di cessione. Il tessuto così ottenuto è totalmente anallergico. Le fibre, perfettamente interlacciate, danno un'assoluta garanzia di non delaminazione e formano una corretta barriera al passaggio della cera.

REVOLUTIONARY HYPOALLERGENIC MATERIAL

We are pleased to introduce Hypo tex, a brand new material for professional hair removal. Obtained by bonding its fibers with water jets, it does not contain any chemical additive, making it safe, as it does not leave chemical residue on the skin. The material is entirely hypoallergenic. Its tightly interlaced fibers give the product a total tear-resistance and act as a barrier against wax.

MATÉRIAU HYPOALLERGENIQUE RÉVOLUTIONNAIRE

Nous avons le plaisir de vous présenter Hypo tex, nouveau matériau destiné à l'épilation professionnelle. Obtenu grâce à la liaison des fibres avec des jets d'eau sans additifs chimiques, ce procès exclut la possibilité d'avoir des résidus sur la peau. Par conséquent le produit est totalement hypoallergénique. Les fibres, parfaitement entrelacées, garantissent la non délamination et l'imperméabilité de la bande, en formant une barrière correcte au passage de la cire.

DA DECCENNI LA CERA FLYING è sinonimo di qualità, costanza e efficacia. Abbinata al nostro tessuto HYPO TEX, garantisce una epilazione perfetta e senza residui, per una pelle più liscia.

FOR DECADES THE FLYING WAX is synonym for quality, constancy and efficiency. Combined with our non-woven HYPO TEX it is a warranty for perfect hair removal and without residue for a smoother skin.

DEPUIS DES DECENTRIES LA CIRE FLYING est synonyme de qualité, constance et efficacité. Combinée à notre tissu-non-tissé HYPO TEX, elle vous garantit une épilation parfaite et sans résidu pour une peau plus douce.

ORIGINALE / ORIGINAL
INSTRUCTIONS
Melt product completely. Use to spread a thin layer applying direction of hair growth. Place a strip non woven fabric over the wax and press to adhere. Proceed by pulling sharply against the direction of hair growth.

BEAUTENE®
created for beauty

CERTIFICATO DI GARANZIA - Materiale Garantito Atossico
WARRANTY CERTIFICATE - Guaranteed Non-toxic Material

COS'È BEAUTENE?

BEAUTENE, miscela di materiali speciali in polietilene, ad alta densità, certificato per il contatto con la pelle, specifico per il settore bellezza. **BEAUTENE**, essendo più morbido rispetto al polietilene tradizionale ad alta densità, offre un maggiore grado di confort per i vari utilizzi del settore estetico.

WHAT IS BEAUTENE?

BEAUTENE is a special blend of high density polyethylene material, certified for contact with the skin. Specifically developed for the beauty sector, **BEAUTENE** offers the best level of comfort for the different uses in the beauty field, because it is softer than the traditional high density polyethylene.

QU'EST CE QUE BEAUTENE?

BEAUTENE est un mélange de matériaux spéciaux en polyéthylène à haute densité, spécifiquement développé pour le secteur de la beauté. **BEAUTENE** est plus doux que le polyéthylène traditionnel à haute densité, et est certifié pour être en contact avec la peau.
